

ClearCanvas Viewer Installation Guide

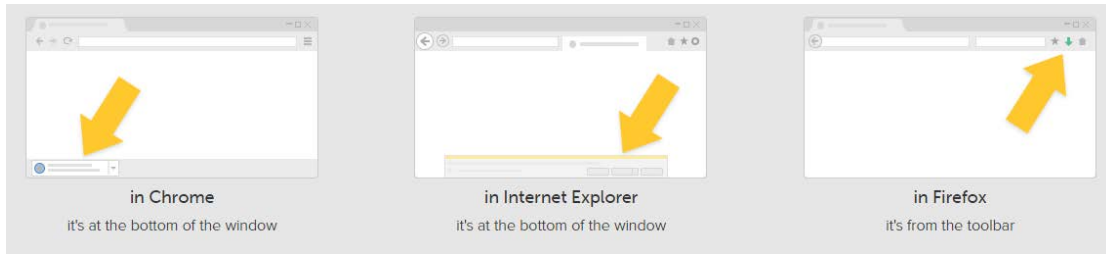

Step#1 Viewer Download

- Download ClearCanvas viewer package from following link: <https://triad4.acr.org/TriadClientATI/>

ClearCanvas Viewer Setup Instructions

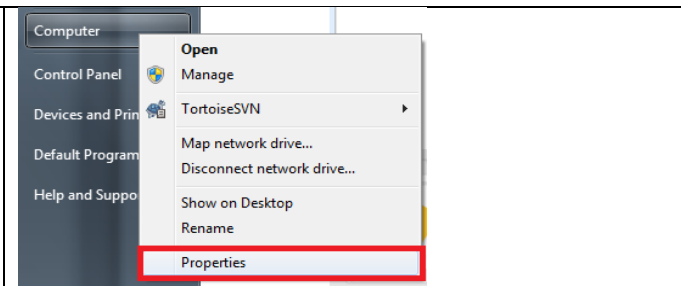

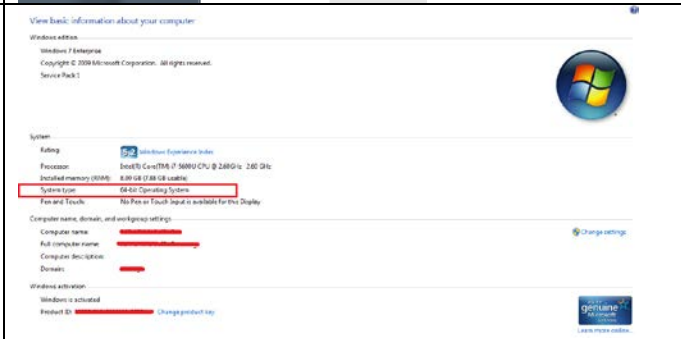

1. Download 64/32 bit version of ClearCanvas based on your Operating System using the links provided below.
2. Extract the Zip File
3. Install DICOM Viewer
4. Install JPEG Codec Patch

File	Download
ClearCanvas DICOM Viewer 13.2 (64 bit)	
ClearCanvas DICOM Viewer 13.2 (32 bit)	

Note: Download either 64 bit or 32bit based on your Operating System version installed on your computer.

Which version should I download?

<p>Open Windows Start Menu -> Right Click 'Computer' -> Left Click 'Properties'.</p>	
<p>Identify correct version to download.</p>	

Step#2 Extracting the Install package

- Extract the Zip file [ClearCanvas 13.2.zip](#) after it is being downloaded.
- The folder should contain 2 files.

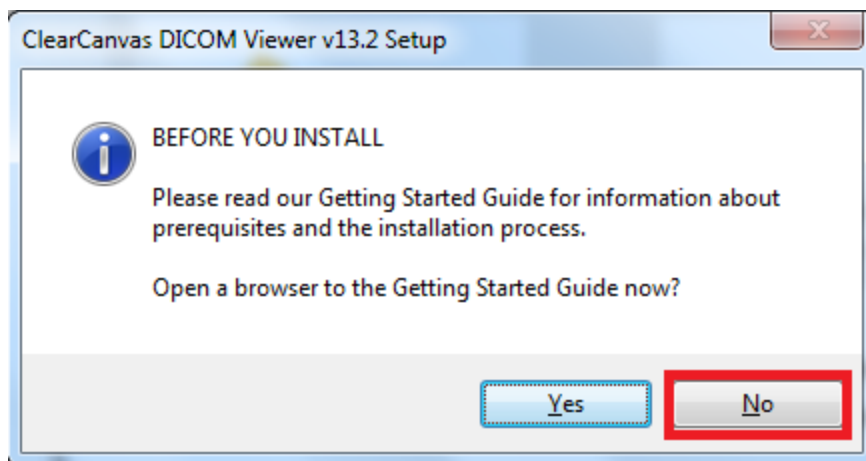

Documents library
ClearCanvas 13.2 x64

Name	Date modified	Type	Size
 ClearCanvasViewer.exe	7/21/2016 3:25 PM	Application	46,010 KB
 Patch.exe	8/12/2016 2:52 PM	Application	555 KB

Note: Both the files need be installed to complete the viewer installation.

Step#3 Install Viewer

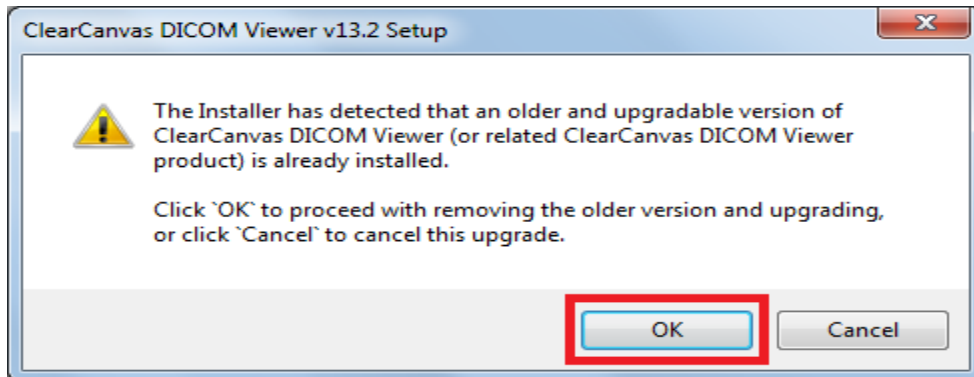

- Double Click the ClearCanvas.exe file. And select 'No' from following screen.

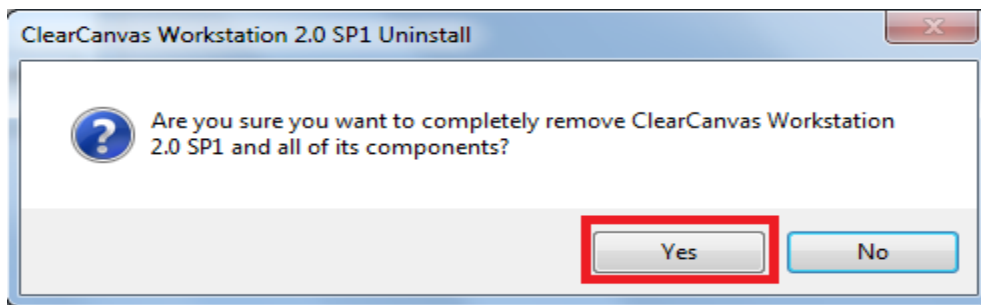

- Wizard shall check if an older version of ClearCanvas is already installed on the system. If an older version is detected, move to the next step. Else, move to **Step#5**.

Step#4 Upgrade to ClearCanvas 13.2

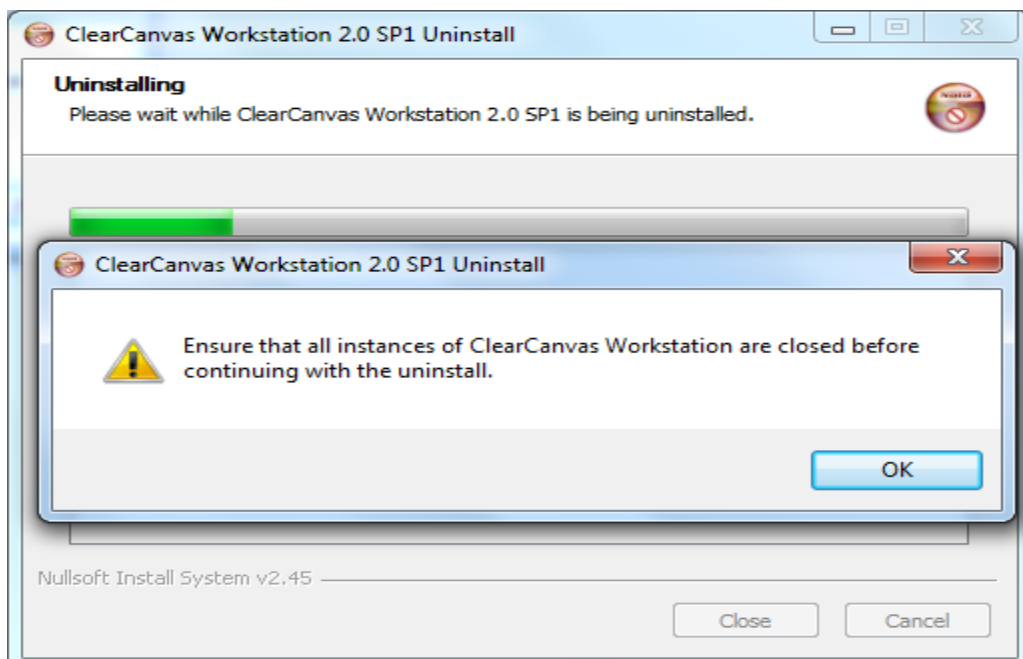

- Click 'OK' on the following screen to un-install old version of ClearCanvas.

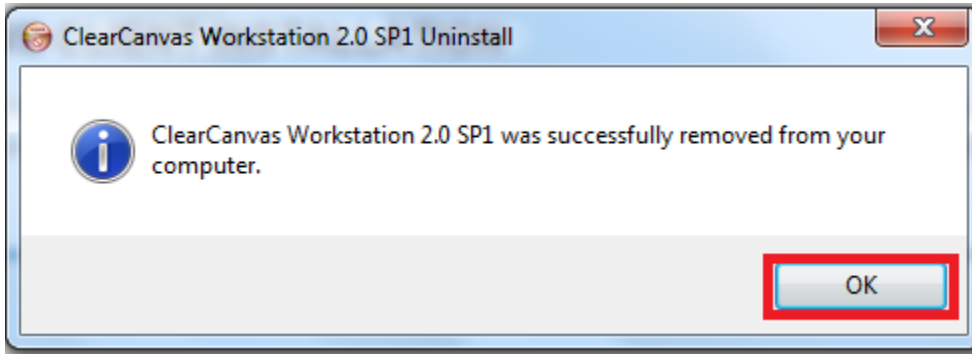

- Click 'Yes' on the next screen.

- If you have ClearCanvas Viewer opened, please close it and click 'OK'. Else, just click 'OK' on the below screen.

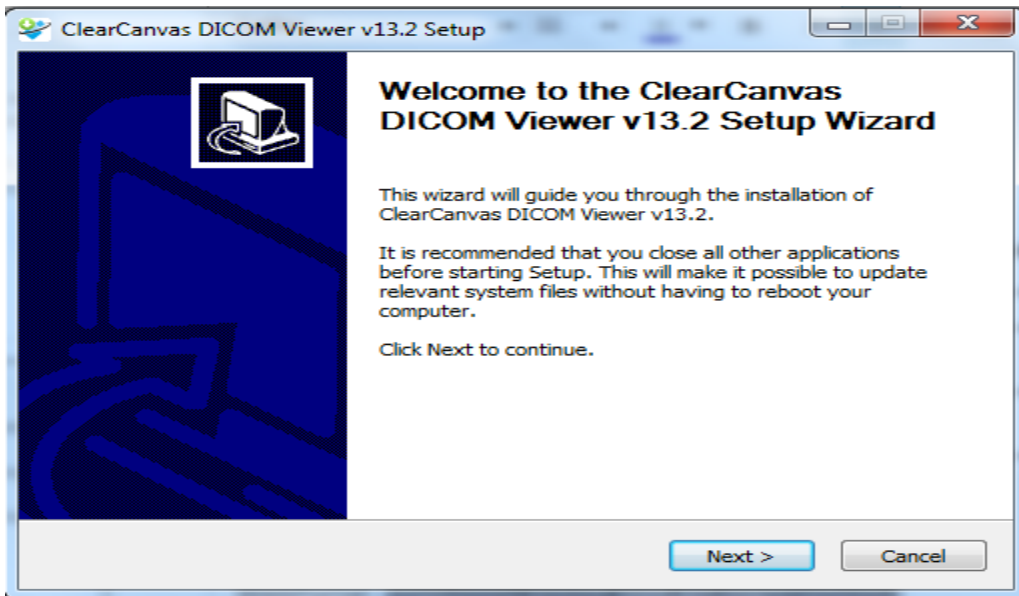

- Click 'OK' on the pop-up after the un-installation process is complete.

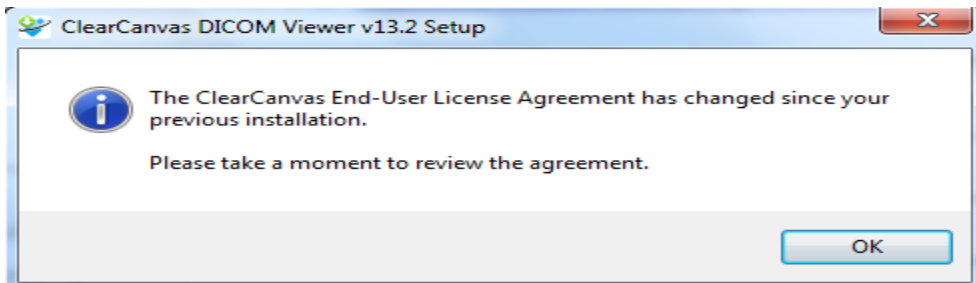

- Installation wizard for the new version will start automatically after the un-installation of old version is complete.

Step#5 New Viewer version Installation

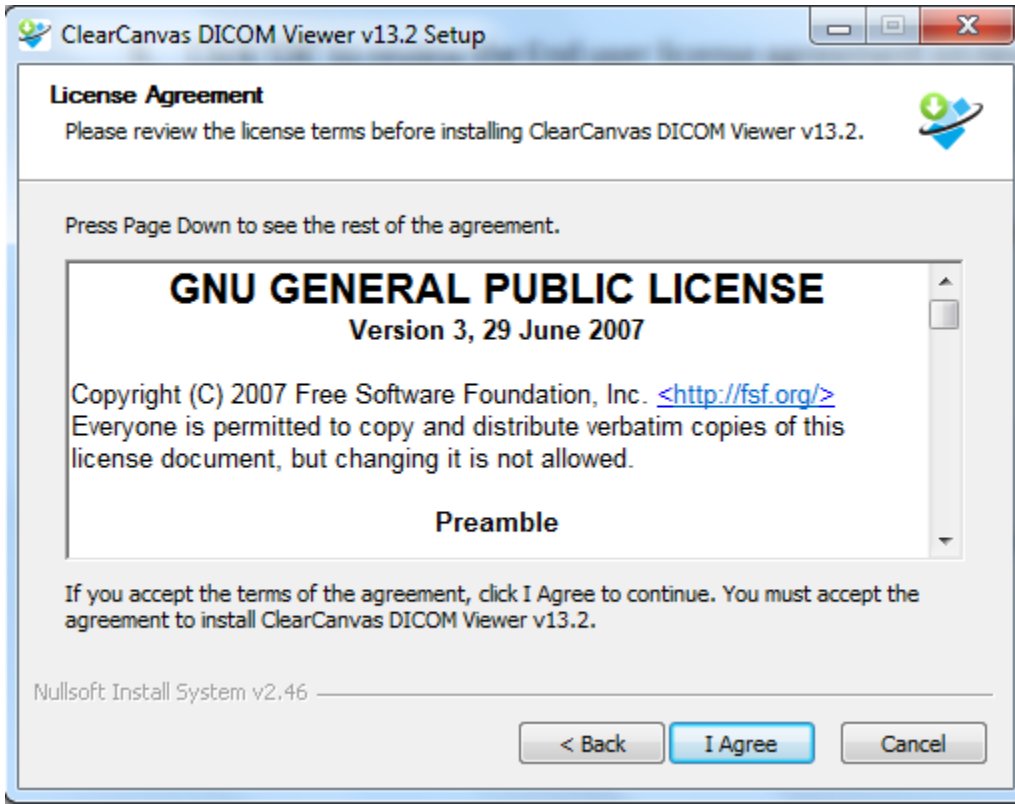

- Click 'Next' on below screen.

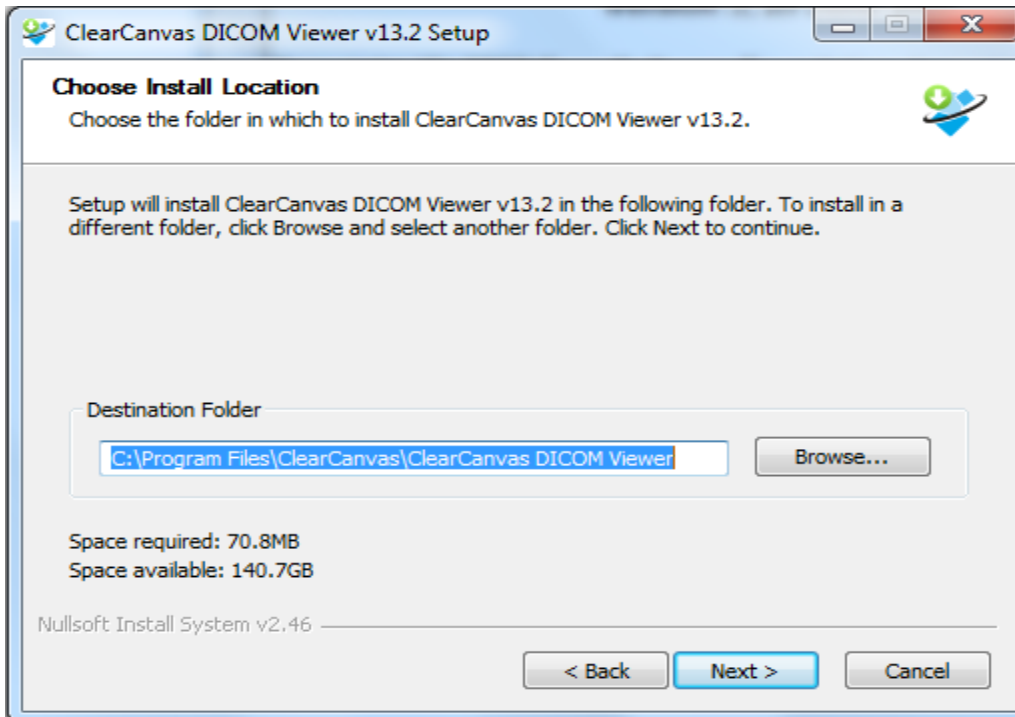

- Click 'OK' to review the End user license agreement on below screen.

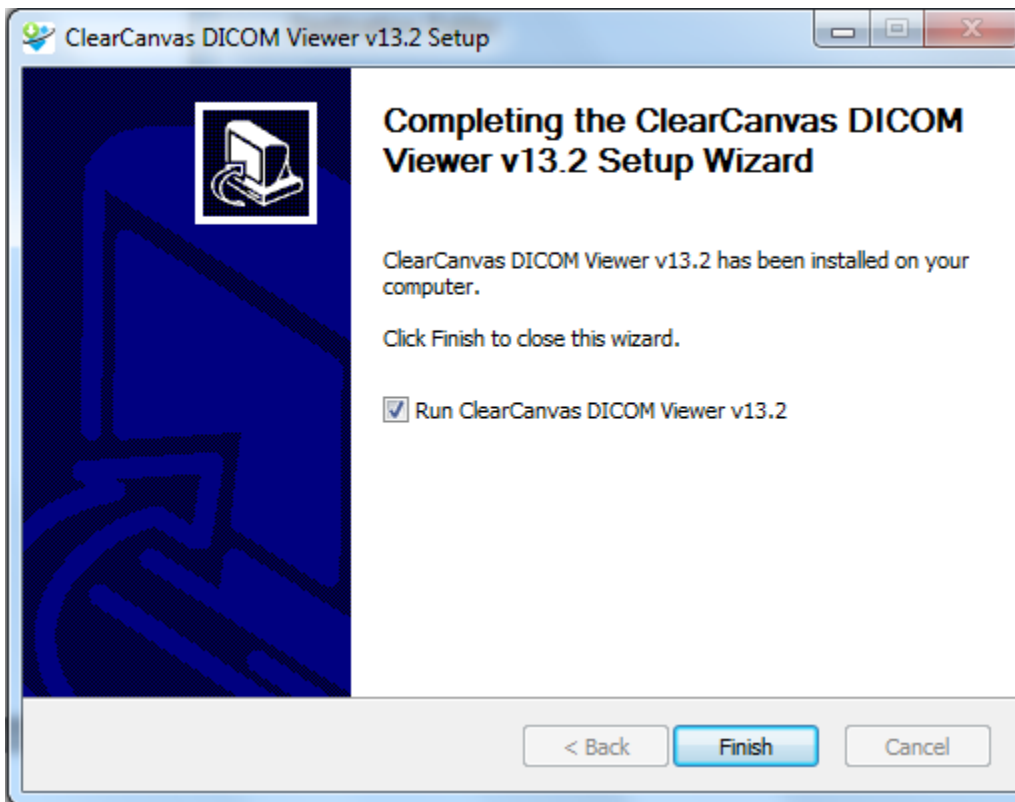

- Review the license agreement and click 'I Agree'.

- Do not change the default installation folder path on the below screen. Click 'Next'.

- The wizard will complete the installation and finally display following window after installation is successfully completed. Click 'Finish'.

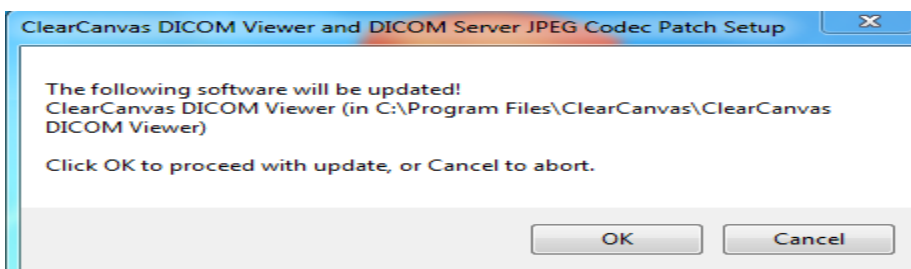

Step#6 Patch Installation

- Close the ClearCanvas viewer after installation.
- Double click the patch file *Patch.exe* from the extracted folder as completed in Step#2.

Documents library
ClearCanvas 13.2 x64

Name	Date modified	Type	Size
ClearCanvasViewer.exe	7/21/2016 3:25 PM	Application	46,010 KB
Patch.exe	8/12/2016 2:52 PM	Application	555 KB

- Click 'OK' on below screen

- Progress of the installation will be displayed and the following screen will appear after patch installation is done. Click 'Close' to finish the installation.
